### 9. The Accidental Tourist

by  
Bill Bryson

#### 1. Summary

This is a funny essay written by Bill Bryson about all the little accidents he has whenever he travels. Once, at an airport, his bag would not open because the zip got stuck, so he yanked it hard. The zip opened suddenly, and everything fell all over the concourse. Another time, he spilt a soft drink on a lady sitting next to him. When the replacement drink came, he spilt that too. Yet another time, he was concentrating on some notes he was writing to himself, and put his pen in his mouth. The ink in the pen leaked and he had navy blue ink all over his lips! These accidents happen only when he is flying with his family. When he flies alone, he protects himself by keeping his hands firmly on his lap. However, this means he can't fly long distances because he can't go long without eating. The poor man is clumsy, but longs to be suave.
